

**WELCOME TO A SOURCE OF
TRUE FLAVOUR**

 **Bafna**

BEHIND BAFNA

Building on over 40 years of heritage in Cochin's historic spice trade, our family-led venture has evolved from humble beginnings into one of India's largest spice exporters. While our reach has expanded significantly, we remain anchored by the same authentic values and commitment to quality that have defined our legacy for decades.

GLOBAL PARTNERS

Bafna Enterprises proudly partners with over 50 plus customers in more than 25 countries, strengthening our global footprint every year.

OUR BEST PRACTISES

Technologically, we are in the realm of the world's best practices, which includes:

- Automated processing and packaging, reducing human intervention to a minimum.
- Capacity to process all types of tropical and seed spices.
- High gauss magnet strength with high sensitivity metal detectors at all critical points.
- Product Portfolio of Indian and International origins - IPM & Conventional meeting all quality requirements including allergen.

Sedex

International Certifications to ensure world class standards

MANUFACTURING FACILITY

- BRC A-grade certified plant audited by TUV with both batch treatment and continuous Ventilex steam sterilization to ensure microbial control.
- Buhler machineries for cleaning and milling lines with in-house CO2 induced cold grinding system to preserve the natural aromas and essential oils of seed spices.
- Offering various product forms such as cracked, crushed, minced, and fine-ground.
- Fully automated manufacturing operations through Programmable Logic Controller (PLC) system.
- Sustainable practises at farm level with established vendors, and eco-conscious manufacturing with deep commitment to workforce diversity, community and environment.

QUALITY CONTROL & ASSURANCE

We do not compromise when it comes to purity. Only the finest raw spices make it through our quality control and assurance.

- Raw materials to finished products meeting physical, chemical & microbial parameters, strictly adhering to allergen policies.
- In-house laboratory equipped with HPLC, Spectrophotometers, and other advanced equipments.
- Foreign Supplier Verification Program (FSVP) in adherence to FSMA (Food Safety Modernization Act) reinforces our dedication to food safety and regulatory compliance.
